IMMUNOLOGY

CONTENTS

Vol. 63 No. 1 January 1988

J.-Y. HUANG, R. E. WARD & H. KOHLER: Biological mimicry of antigenic stimulation: analysis of the *in vivo* antibody responses induced by monoclonal anti-idiotypic antibodies 1

R. RABINOWITZ, D. B. THOMAS, R. HADAR & M. SCHLESINGER: Idiotypic determinants on monoclonal autoantibodies to the Thy-1 antigen 9

G. PERDIGÓN, M. E. N. DE MACIAS, S. ALVAREZ, G. OLIVER & A. P. DE RUIZ HOLGADO: Systemic augmentation of the immune response in mice by feeding fermented milks with *Lactobacillus casei* and *Lactobacillus acidophilus* 17

D. W. MCGEE & D. N. MCMURRAY: The effect of protein malnutrition on the IgA immune response in mice 25

R. GONZALEZ, J. CHARLEMAGNE, W. MAHANA & S. AVRAMEAS: Specificity of natural serum antibodies present in phylogenetically distinct fish species 31

D. MALE & G. PRYCE: Kinetics of MHC gene expression and mRNA synthesis in brain endothelium 37

M. STEFFEN, Y. CAYRE, K. R. MANOGUE & M. A. S. MOORE: 1,25-Dihydroxyvitamin D_3 transcriptionally regulates tumour necrosis factor mRNA during HL-60 cell differentiation 43

A. L. PETZER, T. F. SCHULZ, R. STAUDER, A. EIGENTLER, B. L. MYONES & M. P. DIERICH: Structural and functional analysis of CR2/EBV receptor by means of monoclonal antibodies and limited tryptic digestion 47

D. A. A. VIGNALI, Q. D. BICKLE, M. G. TAYLOR, G. TENNENT & M. B. PEPYS: Comparison of the role of complement in immunity to *Schistosoma mansoni* in rats and mice 55

N. MOAV, E. DRAGHI, A. DAVID & D. GOLD: Anti-*Trichomonas vaginalis* monoclonal antibodies inducing complement-dependent cytotoxicity 63

B. P. MORGAN: Non-lethal complement-membrane attack on human neutrophils: transient cell swelling and metabolic depletion 71

E. P. VAN REES, C. D. DIJKSTRA, M. B. VAN DER ENDE, E. M. JANSE & T. SMINIA: The ontogenetic development of macrophage subpopulations and Ia-positive non-lymphoid cells in gut-associated lymphoid tissue of the rat 79

G. HERRERO-BEAUMONT, J. EGIDO, J. SANCHO, E. GONZÁLEZ, S. CASTAÑEDA & J. F. ESCANERO: Defective function of the mononuclear phagocytic system in rats with chronic nephritis. Evidence of a decreased degradation of IgG aggregates by Kupffer cells 87

M. L. VILLA, F. VALENTI & M. MANTOVANI: Modulation of natural killing by cyclo- and lipo-oxygenase inhibitors 93

J. PAPPO, J. L. EBERSOLE & M. A. TAUBMAN: Resident salivary gland macrophages function as accessory cells in antigen-dependent T-cell proliferation 99

O. SILVENNOINEN & M. HURME: Simultaneous development of cells with large granular lymphocyte (LGL) morphology and natural killer (NK) cell lytic activity after bone marrow (BM) transplantation in mice 105

J.-Y. CHAI & H. S. LILLEHOJ: Isolation and functional characterization of chicken intestinal intra-epithelial lymphocytes showing natural killer cell activity against tumour target cells 111

M. W. TURNER, P. BOULTON, J. G. SHIELDS, S. STROBEL, S. GIBSON, H. R. P. MILLER & R. J. LEVINSKY: Intestinal hypersensitivity reactions in the rat. I. Uptake of intact protein, permeability to sugars and their correlation with mucosal mast-cell activation 119

M. MERKENSCHLAGER, D. KARDAMAKIS, F. C. RAWLE, N. SPURR & P. C. L. BEVERLEY: Rate of incorporation of radiolabelled nucleosides does not necessarily reflect the metabolic state of cells in culture: effects of latent mycoplasma contamination 125

J. F. DOBBS & D. R. KATZ: Human T-cell activation: comparative studies on the role of different phorbol esters 133

T. C. MOORE, C. H. SPRUCK & L. E. LEDUC: Depression of lymphocyte traffic in sheep by anaesthesia and associated changes in efferent-lymph PGE_2 and antibody levels 139

G. A. SPLITTER, L. ESKRA & A. F. ABRUZZINI: Cloned bovine cytolytic T cells recognize bovine herpes virus-1 in a genetically restricted, antigen-specific manner 145

M. YOKOYAMA, Y. KOGA, K. TANIGUCHI, H. NAKANO & K. NOMOTO: T lymphocytes emigrating from the thymus to the spleen during postpartum regulate serum immunoglobulin levels in mice 151

C. S. LEE, K. GOGOLIN-EWENS & M. R. BRANDON: Identification of a unique lymphocyte subpopulation in the sheep uterus 157

Brief communications

W. C. DAVIS, J. A. ELLIS, N. D. MACHUGH & C. L. BALDWIN: Bovine pan T-cell monoclonal antibodies reactive with a molecule similar to CD2 165

B. A. FIEDEL: Platelet response to aggregated C-reactive protein: fibrinogen-dependent and independent signals 169

Announcement 171

Vol. 63 No. 2 February 1988

J. R. GORDON & D. J. MCLAREN: Immunity to *Schistosoma mansoni* in guinea-pigs vaccinated with radiation-attenuated cercariae. T-cell activation of macrophages for larval killing 173

T. Abe & Y. Nawa: Worm expulsion and mucosal mast cell response induced by repetitive IL-3 administration in *Strongyloides ratti*-infected nude mice 181

G. Del Giudice, Q. Cheng, D. Mazier, N. Berbiguier, J. A. Cooper, H. D. Engers, C. Chizzolini, A. S. Verdini, F. Bonelli, A. Pessi & P.-H. Lambert: Immunogenicity of a non-repetitive sequence of *Plasmodium falciparum* circumsporozoite protein in man and mice 187

C. G. Bridges, N. Ledger & N. Edington: The characterization of equine herpes virus-1-infected cell polypeptides recognized by equine lymphocytes 193

N. M. Parish, D. Rayner, A. Cooke & I. M. Roitt: An investigation of the nature of induced suppression to experimental autoimmune thyroiditis 199

M. Zöller & G. Andrighetto: Induction of tolerance towards TNP entails down-regulation of an autoimmune attack 205

F. M. Brennan, E. M. Andrew, D. G. Williams & R. N. Maini: Anti-nRNP anti-nuclear antibody-secreting cells are represented in the B-lymphocyte repertoire of normal and MRL/MP-lpr/lpr Lupus mice 213

C. Feurer, L. H. Chow & J. F. Borel: Preventive and therapeutic effects of cyclosporin and valine ^{2}-dihydrocyclosporin in chronic relapsing experimental allergic encephalomyelitis in the Lewis rat 219

S. E. Christmas, W. P. Steward, M. Lyon, J. T. Gallagher & M. Moore: Chondroitin sulphate proteoglycan production by NK cells and T cells: effects of xylosides on proliferation and cytotoxic function 225

A.-M. Sponaas, B. Loveland & E. Simpson: MHC-unrestricted T-cell cytotoxicity against tumour cells 233

H. C. O'Neill: Restricted blocking of cytotoxic T-cell function by anti-H-2K/D antibodies 241

R. Brines & T. Lehner: Characterization of human T8^{+} suppressor and contrasuppressor cells, separated by the lectin *Vicia villosa* 247

A. M. Pullen & A. J. Munro: Fetal calf serum stimulates 'autoreactive' T-cell hybridomas 255

R. M. Binns, R. Pabst & S. T. Licence: Subpopulations of T lymphocytes emigrating in venous blood draining pig thymus labelled *in vivo* with fluorochome 261

A. Tournefier, F. Guillet, C. Ardavin & J. Charlemagne: Surface markers of axolotl lymphocytes as defined by monoclonal antibodies 269

N. Koyama, N. Harada, T. Takahashi, S. Mita, H. Okamura, A. Tominaga & K. Takatsu: Role of recombinant interleukin-1 compared to recombinant T-cell replacing factor/interleukin-5 in B-cell differentiation 277

A. P. Weetman & A. J. Rees: Synergistic effects of recombinant tumour necrosis factor and interferon-gamma on rat thyroid cell growth and Ia antigen expression 285

H. Yeoman & R. A. Robins: The effect of interferon-gamma treatment of rat tumour cells on their susceptibility to natural killer cell, macrophage and cytotoxic T-cell killing 291

A. Waage & O. Bakke: Glucocorticoids suppress the production of tumour necrosis factor by lipopolysaccharide-stimulated human monocytes 299

C. F. Brooks & M. Moore: Differential MHC class II expression on human peripheral blood monocytes and dendritic cells 303

J. Liversidge, H. F. Sewell, A. W. Thomson & J. V. Forrester: Lymphokine-induced MHC class II antigen expression on cultured retinal pigment epithelial cells and the influence of cyclosporin A 313

R. Goldman: Induction of a β-1, 3-D-glucan receptor in P388D1 cells treated with retinoic acid or 1,25-dihydroxyvitamin D_3 319

A. Malbran, S. Siwik, M. M. Frank & L. F. Fries: CR1-receptor recycling in phorbol ester-activated polymorphonuclear leucocytes 325

M. Breel, R. Mebius & G. Kraal: The interaction of interdigitating cells and lymphocytes *in vitro* and *in vivo* 331

G. H. Caughey, S. C. Lazarus, N. F. Viro, W. M. Gold & J. A Nadel: Tryptase and chymase: comparison of extraction and release in two dog mastocytoma lines 339

Brief communication

H. S. Warren, V. McPhun, A. Bezos & C. R. Parish: The T11$_3$ epitope of the CD2 molecule, sheep erythrocytes, and the alternative T-cell activation pathway 345

Vol. 63 No. 3 March 1988

R. M. Kris, R. A. Yetter, R. Cogliano, R. Ramphal & P. A. Small: Passive serum antibody causes temporary recovery from influenza virus infection of the nose, trachea and lung of nude mice 349

P. T. Tomkins, G. A. Ward & A. G. Morris: Role of interferon-gamma in T-cell responses to Semliki Forest virus-infected murine brain cells 355

J. P. Opdebeeck, J. Y. M. Wong, L. A. Jackson & C. Dobson: Vaccines to protect Hereford cattle against the cattle tick, *Boophilus microplus* 363

J. A. Kirby, G. J. Parfett, J. A. Reader & J. R. Pepper: Lung transplantation in the rat: a model for study of the cellular mechanisms of allograft rejection 369

R. L. Quigley, K. J. Wood & P. J. Morris: Investigation of the mechanism of active enhancement of renal allograft survival by blood transfusion 373

O. H. Hashim & W. Cushley: Simultaneous inhibition of multiple steps in the processing of *N*-linked oligosaccharides does not impair immunoglobulin secretion from rat hybridoma cells 383

Y. Aihara & J. Klein: 'Autoreactivity' of some hybridomas may be caused by a three-cell interaction 389

W. Mourad, G. Pelletier & J. Hébert: Characterization of anti-idiotypic antibodies and their use as probes for determination of shared idiotopes expressed on murine and human IgE anti-rye I antibodies 397

D. A. Sullivan & M. R. Allansmith: The effect of aging on the secretory immune system of the eye 403

G. A. Enders, S. Ballhaus & W. Brendel: The influence of Peyer's patches on the organ-specific distribution of IgA plasma cells 411

H. Kawanishi & J. Kiely: *In vitro* induction of a contrasuppressor immunoregulatory network by polyclonally activated T cells derived from murine Peyer's patches 415

Z. TABI, J. E. ALLAN, R. CEREDIG & P. C. DOHERTY: Lethal vaccina infection in cyclophosphamide-suppressed mice is associated with decreased expression of Thy-1, Lyt-2 and L3T4 and diminished IL-2 production in surviving T cells 423

C. SEKKAT, J. DORNAND & M. GERBER: Oxidative phenomena are implicated in human T-cell stimulation 431

C. L. BALDWIN, N. D. MACHUGH, J. A. ELLIS, J. NAESSENS, J. NEWSON & W. I. MORRISON: Monoclonal antibodies which react with bovine T-lymphocyte antigens and induce blastogenesis: tissue distribution and functional characteristics of the target antigens 439

A. MCLAREN, R. HUNT & E. SIMPSON: Absence of any male-specific antigen recognized by T lymphocytes in X/X*Sxr'* male mice 447

P. J. VALLELY, R. M. SHARRARD & R. C. REES: The identification of factors in seminal plasma responsible for suppression of natural killer cell activity 451

R. C. HARD, M. R. PATEL, L. M. KELLER & T. J. LINNA: Unfractionated spleen cells but not natural killer NK) cells from RFM donors prevent the progression of host-versus-graft disease in murine RFM/($T_6 \times$ RFM)F_1 chimeras 457

G. J. M. MAESTRONI, A. CONTI & W. PIERPAOLI: Role of the pineal gland in immunity. III. Melatonin antagonizes the immunosuppressive effect of acute stress via an opiatergic mechanism 465

Y. TANOUCHI & H. SHICHI: Immunosuppressive and antiproliferative effects of a macrotetrolide antibiotic, tetranactin 471

A. W. THOMSON, C. A. MCPHEE & H. F. SEWELL: Increased production of Kurloff cells and accompanying lymphocyte subset changes in immunized guinea-pigs treated with cyclophosphamide and cyclosporin A 477

B. SHETH, I. DRANSFIELD, L. J. PARTRIDGE, M. D. BARKER & D. R. BURTON: Dibutyryl cyclic AMP stimulation of a monocyte-like cell line, U937: a model for monocyte chemotaxis and Fc receptor-related functions 483

I. DRANSFIELD, D. CORCORAN, L. J. PARTRIDGE, N. HOGG & D. R. BURTON: Comparison of human monocytes isolated by elutriation and adherence suggests that heterogeneity may reflect a continuum of maturation/activation states 491

M. A. CASSATELLA, R. CAPPELLI, V. DELLA BIANCA, M. GRZESKOWIAK, S. DUSI & G. BERTON: Interferon-gamma activates human neutrophil oxygen metabolism and exocytosis 499

A. FERRANTE, M. NANDOSKAR, E. J. BATES, D. H. B. GOH & L. J. BEARD: Tumour necrosis factor beta (lymphotoxin) inhibits locomotion and stimulates the respiratory burst and degranulation of neutrophils 507

S. J. RÜEGG & T. W. JUNGI: Antibody-mediated erythrolysis and erythrophagocytosis by human monocytes, macrophages and activated macrophages. Evidence for distinction between involvement of high-affinity and low-affinity receptors for IgG by using different erythroid target cells 513

P. H. P. GROENEVELD, E. CLAASSEN, C. F. KUPER & N. VAN ROOIJEN: The role of macrophages in LPS-induced lethality and tissue injury 521

G. BOLTZ-NITULESCU, C. WILTSCHKE, K. LANGER, H. NEMET, C. HOLZINGER, A. GESSEL, O. FÖRSTER & E. PENNER: Augmentation of IgE receptor expression and IgE receptor-mediated phagocytosis of rat bone marrow-derived macrophages by murine interferons 529

J. M. AUSTYN & P. J. MORRIS: T-cell activation by dendritic cells: CD18-dependent clustering is not sufficient for mitogenesis 537

K. J. I. THORNE, B. A. RICHARDSON, A. E. BUTTERWORTH & M. STANLEY: Eosinophil-activating factor (EAF) production by a human cell line (ESH 98) stimulated with tumour necrosis factor 545

Brief communication

F. MOMBURG & P. MÖLLER: Non-co-ordinate expression of HLA-DR antigens and invariant chain 551

Book reviews 555

Announcement 557

Errata 559

Vol. 63 No. 4 April 1988

Notice to authors 561

H. S. KIM & H. F. DEUTSCH: Studies of a human λ-chain epitope related to a complementarity-determining region 563

J. NAESSENS, J. NEWSON, D. J. L. WILLIAMS & V. LUTJE: Identification of isotypes and allotypes of bovine immunoglobulin M with monoclonal antibodies 569

Y. M. THANAVALA, M. J. MOORE, R. TEDDER, F. C. HAY & I. M. ROITT: Recognition of several idiotopes on a monoclonal anti-hepatitis B virus surface antigen using monoclonal anti-idiotypic antibodies 575

R. BOSE, A. K. M. EKRAMODDOULLAH, F. T. KISIL & A. H. SEHON: Human and murine antibodies to Rye grass pollen allergen *Lolp*IV share a common idiotope 579

S. SCHÖNERMARK, S. FILSINGER, B. BERGER & G. M. HÄNSCH: The C8-binding protein of human erythrocytes: interaction with the components of the complement-attack phase 585

P. G. HOLT, J. VINES & D. BRITTEN: Suppression of IgE responses by antigen inhalation: failure of tolerance mechanism(s) in newborn rats 591

M. ETCHEVERRIGARY, A. C. PALADINI & L. A. RETEGUI: Stochastic humoral expression of human growth hormone epitopes 595

A. D. WEINBERG, J. SHAW, V. PAETKAU, R. C. BLEACKLEY, N. S. MAGNUSON, R. REEVES & J. A. MAGNUSON: Cloning of cDNA for the bovine IL-2 receptor (bovine Tac antigen) 603

L. BUTLER, B. SIMMONS, J. ZIMMERMAN, P. DERISO, K. PHADKE & J. HOM: Regulation of cellular and humoral immune responses to collagen type I or collagen type II 611

A. D. HERNANDEZ, M. A. CREMER, A. S. TOWNES, J. M. STUART & A. H. KANG: The immune response of guinea-pigs to type II collagen: poor cross-reactivity with homologous type II collagen accounts for resistance to collagen-induced arthritis 619

R. D. Miller & C. E. Calkins: Active role of T cells in promoting an *in vitro* autoantibody response to self erythrocytes in NZB mice 625
